

Positive Matrix Webinars - Collaborative Workshop Packages

Webinar on our Collaborative Workshop Packages

A workshop package is a complete stand-alone downloadable product that includes a Facilitator Guide in PDF format, reproducible Participant Worksheets and a PowerPoint Presentation.

Workshops are designed to energize participants by accessing positive emotional states from where they can broaden their repertoire to collectively build greater capacity.

- We have created this webinar to provide more information on the downloadable packages - what is offered, how to prepare, facilitate and debrief.

- Stay tuned as we will be creating more workshops to meet demand.
